FRANCIS ISRAEL REGARDIE

Occultist, Writer, Psychiatrist, Chiropractor, Healer

Israel Regardie (1907-1985) is a crucial figure in the development of modern occultism. At the age of 21 he travelled to Europe to work as Alester Crowley's secretary, a period he writes about in his perceptive and sympathetic biography of the Beast, *Dr. Israel Regardie's Definitive Work on Alester Crowley The Eye in the Triangle*, New Falcon Publications, First Edition 2017, with a foreword by James Wasserman and an introduction by Lon Milo DuQuette. This work describes their dramatic falling out. Regardie's commitment to magick and spiritual advancement continued unabated.

He joined the Stella Matutina, a continuation of the Golden Dawn. As the operations of this group faltered Regardie came into possession of the Order's papers. Starting in 1937, Regardie published them so that the system would be preserved forever. Hand in hand with his magickal activities Regardie explored Freudian, Jungian and Reichian psychoanalysis, and became a practitioner. For Regardie, magickal endeavour had to interface with spiritual awakening and psychological development.

THE WISDOM OF ISRAEL REGARDIE, Vol. I, II and III

The three volumes are filled with the rich wisdom and deep knowledge of Israel Regardie. These books contain the best of Regardie's introductions to his and other author's books spanning the decades of his career. *Volume I - Selected Introductions, Prefaces and Forewords*, New Falcon Publications, First Edition 2018. *Volume II - Selected Essays and Commentaries*, New Falcon Publications First Edition 2018. *Volume III - Selected Articles, Introductions, Prefaces and Forewords*, New Falcon Publications First Edition 2020. These compilations allows the reader to gain breadth and depth into many of Regardie's writings, thoughts and philosophies.

"As a writer, Regardie has long been hailed as one of the most coherent proponents of Western magic. His work is refreshingly humble and honest: he is able to convey difficult, abstract concepts with clarity and openness to inquiry. Never one to talk down to readers, he focuses instead on the patient teaching of esoteric knowledge: his warm style coaxes readers toward further investigation. He invites the reader to join him in the journey on the Path of Light. And it was through Regardie's writings that we began our own Rosicrucian adventure."

New Wings For Daedalus, from the original manuscript
New Falcon Publications, First Edition 2022.

Israel Regardie, was a Doctor of Chiropractic and he also practiced the psychotherapeutic methods of Wilhelm Reich, M.D. (1897-1957). This book begins by briefly describing Reich's struggle for intellectual freedom, imprisonment and death in prison because of his revolutionary Reichian Therapy and some controversial writing about the Sexual Revolution, scientific experiments into healing cancer, political views, discovery of orgone energy and other concepts which the powers that be at that time felt threatened by and wanted to censor. The rest of the book honors Reich by clearly describing and teaching his theories and techniques of Vegeto-therapy, which were invented to free patients from what Reich called "the emotional plague" of modern times—a rigid, repressed, armored state where people could not connect with their feelings, nor function as natural human beings. The following chapters discuss armoring, therapeutic methods, transference, affects, goals and self-regulation. Regardie breaks down and teaches this highly effective psychotherapeutic method which manipulates the muscular armor directly, thus helping the patient to open their emotions, process and integrate them.

MYSTICISM, PSYCHOLOGY AND OEDIPUS A Small Gem

by Israel Regardie and J. Marvin Spiegelman, Ph.D.
New Falcon Publications, First Edition 2021

Unlike the usual specialist in the twentieth century, Regardie was not limited to a small area of interest. He was a universal man, meaning he was involved personally and academically with all aspect of psycho-spiritual development. Before he died, Regardie gave many of his as yet unpublished writings to the Israel Regardie Foundation with permission to edit, expand and publish. The present work is the first of these posthumous presentations. The centerpiece is the essay, written by Regardie in the late 1940s, called *Mysticism and Oedipus*. Chapter 2, by J. Marvin Spiegelman is a reflection on Regardie's essay. Chapter 3 is an earlier paper of Spiegelman's on the relationship of psychology and the occult, which further compares and contrasts the viewpoints presented in Regardie's work.

J. Marvin Spiegelman, Ph.D., Writer, Jungian Analyst

(1926 - 2017) was a Diplomat in clinical psychology and graduate of the C.G. Jung Institute in Zurich, Switzerland. He had his own private practice in California. He taught at UCLA and USC, consulted and lectured widely in the U.S., Europe, and Japan. He was a prolific writer, beginning with his first book, *The Tree of Life*. It was part of the psycho-mythology series, in which he explored the age-old passions of lust, power, betrayal, greed, and the other appetites of the human soul, as well the psychic needs for love, creativity and religion. Using Jung's technique of active imagination, he invited the reader to join his universal journey into the psyche. Through the analysis of world myth, he explored the structures of the archetypes as they relate to the interior world of the individual.

"Psychotherapy, in contrast with Behavior Modification, has to do with the soul. It is an art and a sensitivity to individuals, not a technique nor a science. All that one learns—history of symbols, case studies, psychiatry and psychology, the arts, and from physical and biological sciences—is only background for the moment when one is confronted with the individuality of that suffering person who presents himself or herself for therapy or analysis..."

ISRAEL REGARDIE

Occultist, Writer, Psychiatrist, Chiropractor, Healer

Israel Regardie (1907-1985) is a crucial figure in the development of modern occultism. At the age of 21 he travelled to Europe to work as Alester Crowley's secretary, a period he writes about in his perceptive and sympathetic biography of the Beast, *Dr. Israel Regardie's Definitive Work on Alester Crowley The Eye in the Triangle*, New Falcon Publications, First Edition 2017, with a foreword by James Wasserman and an introduction by Lon Milo DuQuette. This work describes (and is written in spite of) their dramatic falling out which culminated in Crowley writing anonymously to every one whom Regardie knew or might come into contact with alleging all manner of extreme personal faults, no doubt intended to be as hurtful as possible. Regardie's commitment to magick and spiritual advancement continued unabated.

He joined the Stella Matutina, a continuation of the Golden Dawn. As the operations of this group faltered Regardie came into possession of the Order's papers. Starting in 1937, Regardie published them so that the system would be preserved forever. Hand in hand with his magickal activities Regardie explored Freudian, Jungian and Reichian psychoanalysis, and became a practitioner. For Regardie, magickal endeavour had to interface with spiritual awakening and psychological development.

ORIGINAL AND SUBSTANTIAL LITERARY CONTRIBUTION

Regardie authored nearly a dozen original and substantial books, many of which were first issued in the 1930s. To name a few: *A Garden of Pomegranates - An Outline of the Qabalah*, New Falcon Publications, First Edition 2019. *The Tree of Life - A Study in Magic*, New Falcon Publications, First Edition 2017. *The Philosopher's Stone - A Modern Comparative Approach to Alchemy from the Psychological and Magic Points of View*, with an introduction by Brian Cotnoir, New Falcon Publications, First Edition 2018. *My Rosicrucian Adventure - A Contribution to A Recent Phase of The History of Magic and A Study in the Technique of Theurgy*, New Falcon Publications, Third Revised Edition 2017. *The Middle Pillar*, New Falcon Publications, Second Printing 2020.

(cont.)

He worked to make the Golden Dawn system available and understandable to a new generation with new revised editions of *The Golden Dawn* and original works drawing upon the system in the 1960s, 70s and 80s. His transmission of the Golden Dawn system went beyond just communication of information about the system, he also acted as ritual initiator permitting others the reactivation of the Order.

When the Rosicrucians of old announced themselves to the world in 1614, they described their primary mission as healing. Dr. Israel Regardie remained true to that purpose. He wrote several books on healing, thereby distinguishing himself from most other practitioners of the Western esoteric tradition—at least those working within the Golden Dawn/Thelemic magical currents he so eloquently promulgated in his numerous writings.

THE MIDDLE PILLAR

In 1938, his classic work *The Middle Pillar* was published. In addition to its Qabalistic and magical teachings, this early book focused on the relationship between magick and analytical psychology. He also gave clear instructions for the aura-cleansing Lesser Banishing Ritual of the Pentagram, and extensively discussed the Middle Pillar ritual's efficacy for health and healing—as well as for magical development.

Regardie wrote *Be Yourself: The Art of Relaxation* in 1938, which is now part of the *Small Gem Series*, titled *The Body-Mind Connection - A Path to Wellbeing*, New Falcon Publications, First Edition 2018.

THE PHILOSOPHER'S STONE

Regardie presents text and analysis of three major alchemical works, approached symbolically, using the symbol systems and viewpoints of magic and psychology. The objective of alchemical study has been described poignantly by Dr. Israel Regardie. Like modern psychological methods, the alchemical formulae have as their goal the creation of a whole man, a fully integrated individual. Not only does alchemy envisage a person whose several constituents of consciousness are united, but with the characteristic thoroughness of all occult and magical methods, it proceeds a stage further. Alchemy aspires toward the development of a free and illuminated psyche. It is here that it parts company with orthodox psychology. It is here that Dr. Regardie's insights shine. The clarity and elegance of the author's style, and the precision and depth of his thought, make *The Philosopher's Stone* an important and meaningful experience for every person who aspires to personal development and wholeness.

THE COMPLETE GOLDEN DAWN SYSTEM OF MAGIC

It includes the Order's instructions in Ritual Magic, Invocation, Tarot, Qabalah, Enochian, Astrology, Esoteric Doctrine and more, along with the Order's Initiation Rituals: *The Complete Golden Dawn System of Magic, Book I and Book II*, New Falcon Publications, First Limited Editions 2019.
